To whom it may concern:

Any man experiencing pain in the testicle he describes as 9 on a scale of 1 to 10 needs immediate examination, imaging and treatment.

- Jonathan Fleischmann, MD, FACS

excruciating pain requires urgent treatment by a specialist for what could be an emergency.

Subject: Please email BOP- I am in pain & being denied care

Hi Rabbis and friends,

I need your help, emailing BOP officials to get me medical care.

The doctor here, who is reportedly under criminal investigation (see below), has been denying me a urologist for 3+ weeks despite excruciating pain which has gotten much worse. I have submitted multiple requests and they continue to deny care.

Today I spent mostly in bed from the pain and tonight the pain is 9/10 and I am worried about losing the ability to have children if this persists.

I need outside advocacy to move them to have me seen by a urologist and emails from Rabbis and family and friends will help.

Can you please email: Director Peters, Warden Huette, Director Hugo, Dr. Alarcon, Dr. Chipi

cpeters@bop.gov , gheuette@bop.gov, ghuette@bop.gov, gheuett@bop.gov, gheutte@bop.gov,
thugo@bop.gov , ilarcon@bop.gov , mchipi@bop.gov

I am unsure of the warden's spelling, so please CC all variations of his last name "G. Huette" if you cannot find it on Google (if you can, please let me know so I can spell it correctly in the future).

And ask them to have me seen immediately by a board-certified urologist?

This is embarrassing to ask, but this is the BOP and without outside advocacy this doctor Alarcon, will deny me medical care for the next 81 days I am here and g-d forbid that could have permanent damage.

Please email and ask that I be seen by a board-certified urologist and that imagery be taken and treatment be given to ensure there is no permanent damage.

The case where the doctor is questioned about being investigated for illegal kickbacks and medical malpractice is "22-CV-22845-JEM". When he is asked if he has (a) "ever been the target of a criminal investigation for receiving kickbacks", and (b) has ever "received payment from Larkin Hospital or its representatives" for sending them patients from the BOP, and he answers both times, "I don't recall" (rather than "No" or "Not to my knowledge"). Multiple staff members and men incarcerated warned me of him, and he is being sued for malpractice for similar alleged negligence and abuse of another inmate, Mr. Groover, and he has been nothing but abusive to me and other inmates who have described their experiences with him. Therefore, without your emailing, I will not receive care. Please email, as every person who does will help me get care.

Thank you,
Ari

Hello Director Peters and Warden Huette.

I have been in communication with Ari Teman (18244104 in corlinks) and it has come to my attention that he has been denied access to be seen by a board certified urologist for 3+ weeks despite excruciating pain which has gotten worse. He has submitted multiple requests and he is continuing to be denied care.

Ari (and his loved ones) are concerned that without outside advocacy this doctor, Alarcon, will deny Ari's medical care for the next 81 days that he is in prison and g-d forbid that could

Hi – My name is Marc Mouhadeb and emailing you to request that Ari Teman be able to see a urologist. I am a dear friend of his and know he is in dire pain.

While I am sure there is a backlog and the doctor is busy, this is very important as he believes this can cause irreversible damage to his organs.

Thank You,

Marc Mouhadeb
